Technical Skills

FRONTEND

React.js · JavaScript · TypeScript · CSS3 · Tailwind · Bootstrap · Responsive UI · RTL · Context API

BACKEND & DATA

PHP · Laravel · REST APIs · PostgreSQL · Prisma · SQLite

AUTOMATION

Python · Pandas · Selenium · Excel / CSV · scikit-learn · Process Automation

AI-ASSISTED DEV

Cursor · Claude · ChatGPT · AI Debugging · Code Review · Rapid Prototyping

TOOLS

Git · GitHub · Vercel

Education

B.Sc. Computer Engineering

Islamic Azad University, Shahr-e-Rey
2019 - Present · Tehran, Iran

Courses

- Web Programming (Web 1) - Tehran Institute of Technology
- Network+ - Candoo Institute
- Team Mastery - Leadership & team skills

Professional Summary

Frontend Developer with hands-on experience developing, maintaining, and shipping client web products and user-facing platforms using React, JavaScript, TypeScript, CSS, and responsive RTL interfaces. Alongside team-based frontend work, I independently built and shipped Memoriez end to end as a Laravel/PHP e-commerce product. My earlier operations background also includes Python-based automation for ticket processing, reporting, and repetitive-work reduction. I use Cursor, Claude, and ChatGPT to accelerate research, implementation, and debugging while manually reviewing and refining the final code.

Professional Experience

Mar 2025 - Present

Frontend Developer — Studio 6×4

Project-based / Part-time

- Develop and maintain client web products, dashboards, panels, and landing experiences using React, JavaScript, TypeScript, and CSS.
- Implement features, responsive UI, debugging, and post-launch support while collaborating with developers and handling parallel project work.
- Use AI-assisted development to accelerate research and implementation, with manual review and refinement before delivery.

Oct 2022 - Jun 2026

Operations Team Lead — Zitel / FANAP Telecom

- Managed operational workflows, technical teams, subcontractors, ticket monitoring, and process execution in a large telecom environment.
- Built Python-based internal tools with Pandas, Selenium, and Excel/CSV processing for ticket filtering, dispatching, CRM automation, and reporting.
- Reduced manual effort and processing time by approximately 70-90% across several repetitive operational workflows.

Oct 2021 - May 2022

Technical Support & Monitoring Specialist — iSun Lotus Mobile Services Co.

- Monitored services and technical incidents, managed tickets/escalations, and followed issues through resolution with technical teams.

Apr 2021 - Sep 2021

Customer Service Specialist — Behpardaz Jahan

- Handled customer requests, coordinated issue resolution across internal teams, and supported organizational service operations.

Selected Projects

FRONTEND · WEB · AUTOMATION

01 — PLATFORM

Hamyan Service Platform

React.js · JavaScript · Bootstrap · Context API · RTL

Contributed to public and authenticated product interfaces for a Persian family/group fund platform, including responsive RTL UI, user-panel areas, feature maintenance, and team-based frontend development.

ROLE: Frontend Developer

PROOF: Production · hamyanapp.com

RTL · Team

02 — FULL STACK

Memoriez

Laravel 12 · PHP · Blade · Tailwind · Alpine.js · Eloquent/SQL

Designed and developed a production retail/wholesale e-commerce product end to end, including storefront, backend business logic, cart/checkout, inventory, admin workflows, payments, and responsive Persian RTL UI.

ROLE: Full-Stack Developer (Solo)

PROOF: Live · memoriez.ir

Laravel · Production

03 — E-COMMERCE

Ilya Gold Gallery

WordPress · WooCommerce · PHP · JavaScript/jQuery · CSS · RTL

Customized and extended an existing jewelry e-commerce/CMS base with storefront, product, cart, checkout, RTL, and business-specific frontend behavior while preserving manageable content workflows.

ROLE: Frontend / E-commerce Developer

PROOF: Live · iliyagoldgallery.ir

WooCommerce · Client

04 — CLIENT

Zivand AI Chat Interface

React · TypeScript · Tailwind CSS · Vite · LocalStorage

Built a responsive Persian RTL chat interface with conversation history, new/delete flows, drawer navigation, local persistence, and an API-ready frontend structure.

ROLE: Frontend client project

RTL · Chat UI

05 — PRODUCT

Daal Cafe Digital Menu

Next.js 15 · Prisma · PostgreSQL · NextAuth

Developed a live restaurant digital menu/CMS with product presentation, authenticated administration, and data-backed menu workflows for day-to-day content management.

ROLE: Full-Stack Developer

PROOF: Live · daalcafe.ir

CMS · DB

06 — AUTOMATION

Zitel Operations Automation Suite

Python · Pandas · Selenium · scikit-learn · Excel/CSV

Built internal tools for RF ticket filtering, CRM ticket closing, and zone-based dispatching to remove repetitive processing and standardize high-volume operational workflows.

IMPACT: Approx. 70-90% manual time reduction across multiple workflows
